Worried About Vocal Damage? Do This Everyday: - Worried About Vocal Damage? Do This Everyday: by Voice Lesson.com 1,220,599 views 11 years ago 5 minutes, 44 seconds - Use this ultra simple routine every day to gauge the health of your voice. It will also help speed up recovery if your vocal folds are ...

Release a little air through your nose at the beginning of the hum. (like a sigh)

The ability to sustain a low volume hum without the voice cutting out indicates good vocal health.

Don't push or get louder to reach higher notes.

Humming a high pitch at a very low volume will reduce swelling and renew flexibility to the vocal folds.

This exercise is a great way to assess the condition of your vocal folds.

Do it everyday before and after you sing.

It may take an hour of gentle humming to soothe your vocal folds.

If no change occurs in an hour stop and rest your voice. Do not sing.

Remember if your voice breaks up don't push or get louder. Just continue to ask for a low volume hum.
