

FILE GREENING HEALTH CARE FACILITIES OBSTACLES AND OPPORTUNITIES A CASE STUDY INVOLVING THE NEW VIVIAN AND SEYMOUR HEART CENTER AT COLUMBIA PRESBYTERIAN AND THE HYBRID HOSPITAL

Planning and Designing Healthcare Facilities

The planning and design of healthcare facilities has evolved over the previous decades from "function follows design" to "design follows function." Facilities stressed the functions of healthcare providers but patient experience was not fully considered. The design process has now crucially evolved, and currently, the impression a hospital conveys to its patients and community is the primary concern. The facilities must be welcoming, comfortable, and exude a commitment to patient well-being. Rapid changes and burgeoning technologies are now major considerations in facility design. Without flexibility, hospitals face quicker obsolescence if designs are not forward-thinking. Planning and Designing Healthcare Facilities: A Lean, Innovative, and Evidence-Based Approach explores recent developments in hospital design. Medical facilities have been adapted to the requirements of clinical functions. Recently, the needs of patients and clinical pathways have been recognized. With the patient at the center of the process, the flow of tasks becomes the guiding principle as hospital design must employ evidence-based thinking, and process management methods such as Lean become central. The authors explain new concepts to reduce healthcare delivery cost, but keep quality the primary consideration. Concepts such as sustainability (i.e., Green Hospitals) and the use of new tools and technologies, such as information and communication technology (ICT), Lean, and evidence-based planning and innovations are fully explained.

Congenital Heart Disease in the Adult

Provides guidelines outlining the frequency of visits, appropriate testing, and criteria for intervention.

Ethics in Psychology and the Mental Health Professions

Revised edition of the authors' Ethics in psychology and the mental health professions, 2008.

Managing Chronicity in Unequal States

By portraying the circumstances of people living with chronic conditions in radically different contexts, from Alzheimer's patients in the UK to homeless people with psychiatric disorders in India, Managing Chronicity in Unequal States offers glimpses of what dealing with medically complex conditions in stratified societies means. While in some places the state regulates and intrudes on the most intimate aspects of chronic living, in others it is utterly and criminally absent. Either way, it is a present/absent actor that deeply conditions people's opportunities and strategies of care. This book explores how individuals, groups and communities navigate uncertain and unequal healthcare systems, in which inherent moral judgements on human worth

have long-lasting effects on people's wellbeing. This is key reading for anyone wishing to deconstruct the issues at stake when analysing how care and chronicity are entangled with multiple institutional, economic, and other circumstantial factors. How people access the available informal and formal resources as well as how they react to official diagnoses and decisions are important facets of the management of chronicity. In the arena of care, people with chronic conditions find themselves negotiating restrictions and handling issues of power and (inter)dependency in relationships of inequality and proximity. This is particularly relevant in current times, when care has given in to the lure of the market, and the possibility of living a long and fulfilling life has been drastically reduced, transformed into a 'reward' for the few who have been deemed worthy of it.

The Army Air Forces in World War II: Men and planes

Ample evidence has been provided that women historically have suffered numerous social, political, and institutional barriers to their entrance and success in the sciences. The articles in this anthology refocus the discussion and reflect the interdisciplinary nature of the issues surrounding women in the sciences. While the barriers that women have faced as researchers, subjects of research, students of science, and theorists have been well documented, this anthology breaks new ground. It presents the ways women succeed in the sciences, overcome these historical barriers, and contribute to the social practice of science and the philosophy of science in both theory and practice.

Women Succeeding in the Sciences

Implanting the human body with human/animal organs or implantable devices not only changes what you are but also changes who you are.

Embodiment of the Everyday Cyborg

"Written in a highly readable and accessible style, this new edition retains the key features that have contributed to its popularity, including hundreds of case studies that provide illustrative guidance on a wide variety of topics, including fee setting, advertising for clients, research ethics, sexual attraction, how to confront observed unethical conduct in others, and confidentiality. *Ethics in Psychology and the Mental Health Professions* will be important reading for practitioners and students in training."

--BOOK JACKET.

Ethics in Psychology

The cardinal indicator of a satisfactory outcome for neonatal intensive care is normal neurological development, yet until very recently, clinical monitoring of brain function was limited to the physical examination. Recently, though, a number of new techniques have been developed to assist clinicians who wish to know more about the neurological status of their fragile patients. This issue explores various techniques of brain monitoring including continuous EEG, near-infrared spectroscopy, and biochemical markers, as well as articles intended to help clinicians respond appropriately to abnormalities and changes discovered during monitoring. This issue should appeal to physicians, nurses, therapists, and other members of the neonatal intensive care team.

Brain Monitoring in the Neonate

Includes Hospital news of the month.

Hospitals

This is the most helpful and comprehensive resume book you can buy. It includes more than 400 success-

proven resume examples that teach you how to personalize your resume according to your own unique career situation. The 17 chapters contain resumes that cover all major industries, span all job levels from entry-level to CEO, and are helpfully arranged by both job field and title to make it easy for you to quickly locate the resumes that address your particular field or situation. The first chapter includes expert advice on what to include on your resume and what to omit, what to emphasize and what to tone down. It is specifically designed to keep reading to a minimum, so you can start sending out your resume as soon as possible. The second chapter, devoted to creating hard-hitting cover letters, includes 40 examples that cover a wide variety of typical career situations, while the third chapter includes 30 resumes that cover difficult circumstances. There is even a chapter devoted to students to help new graduates joining the workforce.

Medical Consequences of Nuclear Warfare

Quantile regression is gradually emerging as a unified statistical methodology for estimating models of conditional quantile functions. By complementing the exclusive focus of classical least squares regression on the conditional mean, quantile regression offers a systematic strategy for examining how covariates influence the location, scale and shape of the entire response distribution. This monograph is the first comprehensive treatment of the subject, encompassing models that are linear and nonlinear, parametric and nonparametric. The author has devoted more than 25 years of research to this topic. The methods in the analysis are illustrated with a variety of applications from economics, biology, ecology and finance. The treatment will find its core audiences in econometrics, statistics, and applied mathematics in addition to the disciplines cited above.

Encyclopedia of Job-winning Resumes

Pathophysiology and Pharmacology in Nursing provides an integrated introduction to both the biology of disease and the therapeutic agents that are used to manage them.

Quantile Regression

Written by the authorities in endoscopic surgery, this text presents all diagnostic and therapeutic endoscopic procedures in a single volume. The book covers all applications of this technology with particular emphasis on the role of endoscopy in the care of the individual patient and how the technique complements routine surgical practice. Well illustrated, with over 400 color photographs to aid in the interpretation of the procedures.

Pathophysiology and Pharmacology in Nursing

How our visual and intellectual cultures are changed by the new interaction-based media and technologies.

The Rights of War and Peace

Focused on a body of films bound together through a cinematic aesthetic of slowness, this book is a pioneering effort to situate, theorise and map out slow cinema within contemporary global film production and across world cinema history.

Endoscopic Surgery

This title was originally published in 1998. *Play It Again, Sam* is a timely investigation of a topic that until now has received almost no critical attention in film and cultural studies: the cinematic remake. As cinema enters its second century, more remakes are appearing than ever before, and these writers consider the full range: Hollywood films that have been recycled by Hollywood, such as *The Jazz Singer*, *Cape Fear*, and

Robin Hood; foreign films including *Breathless*; and *Three Men and a Baby*, which Hollywood has reworked for American audiences; and foreign films based on American works, among them Yugoslav director Emir Kusturica's *Time of the Gypsies*, which is a "makeover" of Coppola's *Godfather* films. As these essays demonstrate, films are remade by other films (Alfred Hitchcock went so far as to remake his own *The Man Who Knew Too Much*) and by other media as well. The editors and contributors draw upon narrative, film, and cultural theories, and consider gender, genre, and psychological issues, presenting the "remake" as a special artistic form of repetition with a difference and as a commercial product aimed at profits in the marketplace. The remake flourishes at the crossroads of the old and the new, the known and the unknown. *Play It Again, Sam* takes the reader on an eye-opening tour of this hitherto unexplored territory. This title is part of UC Press's *Voices Revived* program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, *Voices Revived* makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1998.

Summary of Awards

Minimally Invasive Surgical Oncology is aimed at the minimal invasive surgeon as well as at the general surgeon and surgical trainee who wish to explore this field. It covers disciplines like gastroenterology, gynecology, urology, thoracic and pediatrics and builds bridges to oncologists and internal medicine. It gives a state-of-the-art overview and perspectives for future developments and research as well. The book serves as an operative guide for a new generation of surgeons and offers the extraordinary feature being a text book, an operative atlas and a quick reference guide as well. The reader is provided with a tool in hand which synthesizes the latest knowledge in traditional therapies like chemotherapies and gives a comprehensive overview how to proceed in treating a cancer patient using minimal access techniques.

Medical Aspects of Biological Warfare

Profiling hundreds of local businesses, and with an eye on Portland, Oregon's, unique penchant for sustainability and urban development, "Brew to Bikes" is about everything from bike manufacturers to microbreweries, from do-it-yourself to traditional crafts.

The Digital Dialectic

Exhibition includes approximately 2% of the acquisitions made during the 1990s.

Slow Cinema

First published in 1997. Routledge is an imprint of Taylor & Francis, an informa company.

Play It Again, Sam

This anthology contains selections from "Planning for Higher Education," the quarterly journal of the Society for College and University Planning. Following the preface, the second section, "Coming Changes in Academe," contains these articles: (1) "Designing Colleges for Greater Learning" (Ernest Pascarella and Patrick Terenzini, v20 n3); (2) "The Changing Milieu for Education Planning" (George Keller, v23 n2); (3) "Look Who's Coming to College" (Vivian Center Selzer, v19 n2); (4) "Rethinking Affirmative Action on Campus" (George R. La Noue, v24 n1); (5) "Distancing Your College Courses" (Deborah Allen Carey, v24 n4); (6) "A Pioneer in High-Tech Instruction" (Gary Judd and Laura Tanski, v25 n3); (7) "Coming Soon: Alternatives to Tenure" (Richard Chait, v25 n4); (8) "Attracting Blacks into Engineering" (Phyllis Denbo and Saul K. Fenster, v19 n4); (9) "Promoting Equality for Women in Academe" (Barbara Sylvia, v19 n3); (10) "Education's New Academic Work Force" (David Leslie and Judith Gappa, v22 n4); (11)

"Reconstructing the First Year of College" (Vincent Tinto, v25 n1); and (12) "The Approaching Metamorphosis of Community Colleges" (Jon Travis, v25 n2). The third section, "Facilities for Tomorrow," contains: (13) "Restoring the Values of Campus Architecture" (Werner Sensbach, v20 n1); (14) "Making College a Great Place To Talk" (Ray Oldenburg, v20 n1); (15) "Classrooms for the 21st Century" (Michael Owu, v20 n3); (16) "New-Wave Student Housing" (Earl Flansburgh, v19 n3); (17) "Campus Architecture That Shapes Behavior" (James Burlage and Wendell Brase, v23 n3); (18) "Do's and Don'ts of Historic Preservation on Campus" (Stanton Eckstut and Ezra Ehrenkrantz, v23 n2); (19) "Frontier Acoustics for Music Buildings" (Russell Cooper, v21 n2); (20) "The New College Bookstore" (John Finefrock, v21 n3); (21) "The Outburst of Student Recreation Centers" (David Body, v25 n1); and (22) "Stimulating Change through Recombinant Facilities" (Rodney Rose, v25 n3). Section 4, "Improving the Finances," contains: (23) "How To Think about Rising College Costs" (William J. Baumol and Sue Anne Batey Blackman, v23 n4); (24) "Education and Family Wealth" (John Langbein, v20 n1); (25) "The Necessary Revolution in Financial Accounting" (Gordon Winston, v20 n4); (26) "Rendering unto Caesar: The Movement to Tax Colleges" (Cynthia Burns, v25 n1); (27) "Coming Soon: The Cashless Campus" (Carole Ann Peskin and Marie McDemmond, v22 n2); (28) "Good-bye to Ivory Towers" (Philip Turner, v25 n1); (29) "States and College Reform: New Jersey's Experiment" (T. Edward Hollander, v19 n3); (30) "Statewide Planning during Declining State Support" (Gertrude Eaton, Javier Miyares, and Ruth Robertson, v23 n4); (31) "Closing in on Faculty Productivity Measures" (Michael Middaugh, v24 n2); (32) "A New Approach to Campus Legal Services" (Michael Roster and Linda Woodward, v24 n4); (33) "Growing the Endowment in a High-Risk Environment" (Charles Tharp, v25 n4); (34) "The Strategic Use of Debt Financing" (David Hornfischer, v25 n4); and (35) "Rethinking Capital Campaigns" (Peter Buchanan, v21 n2). Most articles contain references. (SLD).

Minimally Invasive Surgical Oncology

Published to accompany the 1994 exhibition at The Museum of Modern Art, New York, this book constitutes the most extensive survey of modern illustrated books to be offered in many years. Work by artists from Pierre Bonnard to Barbara Kruger and writers from Guillaume Apollinaire to Susan Sontag. An important reference for collectors and connoisseurs. Includes notable works by Marc Chagall, Henri Matisse, and Pablo Picasso.

Brew to Bikes

This book investigates the relationship between the ideas of nation and race among the nationalist intelligentsia of the Italian Risorgimento and argues that ideas of race played a considerable role in defining Italian national identity. The author argues that the racialization of the Italians dates back to the early Napoleonic age and that naturalistic racialism—or race-thinking based on the taxonomies of the natural history of man—emerged well before the traditionally presumed date of the late 1860s and the advent of positivist anthropology. The book draws upon a wide number of sources including the work of Vincenzo Cuoco, Giuseppe Micali, Adriano Balbi, Alessandro Manzoni, Giandomenico Romagnosi, Cesare Balbo, Vincenzo Gioberti, and Carlo Cattaneo. Themes explored include links to antiquity on the Italian peninsula, archaeology, and race-thinking.

White Paper on Environmental Management Policy

Architects today incorporate principles of sustainable design as a matter of necessity. But the challenge of unifying climate control and building functionality, of securing a managed environment within a natural setting—and combating the harsh forces of wind, water, and sun—presented a new set of obstacles to architects and engineers in the mid-twentieth century. First published in 1963, *Design with Climate* was one of the most pioneering books in the field and remains an important reference for practitioners, teachers, and students, over fifty years later. In this book, Victor Olgyay explores the impact of climate on shelter design, identifying four distinct climatic regions and explaining the effect of each on orientation, air movement, site,

and materials. He derives principles from biology, engineering, meteorology, and physics, and demonstrates how an analytical approach to climate management can merge into a harmonious and aesthetically sound design concept. This updated edition contains four new essays that provide unique insights on issues of climate design, showing how Olgyay's concepts work in contemporary practice. Ken Yeang, John Reynolds, Victor W. Olgyay, and Donlyn Lyndon explore bioclimatic design, eco design, and rational regionalism, while paying homage to Olgyay's impressive groundwork and contributions to the field of architecture.

Significance of Mineralogy in the Development of Flowsheets for Processing Uranium Ores

Dynamic secrets are constantly generated and updated from messages exchanged between two communication users. When dynamic secrets are used as a complement to existing secure communication systems, a stolen key or password can be quickly and automatically reverted to its secret status without disrupting communication. "Dynamic Secrets in Communication Security" presents unique security properties and application studies for this technology. Password theft and key theft no longer pose serious security threats when parties frequently use dynamic secrets. This book also illustrates that a dynamic secret based security scheme guarantees impersonation attacks are detected even if an adversary steals a user's password or their key is lost. Practitioners and researchers working in network security or wireless communications will find this book a must-have reference. "Dynamic Secrets in Communication Security" is also a valuable secondary text for advanced-level students in computer science and electrical engineering.

Art for the Nation

The types of findings included for each category include program characteristics, services, strategies, staffing, outreach, educational material needs, successes, and additional observations. Various types of maternal and infant health resources (coalitions, clearinghouses, books and directories) are identified. A copy of the survey instrument and the names and addresses of survey respondents are provided.

Child Protection and Family Support

The Fulbright Education Exchange program has given American and foreign students and scholars transnational educational experiences in every country in the world. The Fulbright Difference brings together twenty-seven of these participants, along with ten foreign alumni, in a collective effort to stimulate greater awareness of the depth of the Fulbright achievement. Fulbright scholars show how the benefits of their participation extend well beyond their foreign study. Following an earlier volume, *The Fulbright Experience*, this second volume explores issues of importance for historians of society, politics, culture, intellect, and diplomacy, as well as administrators of the Fulbright program and policymakers in all nations. The collective portrait is a hard look at the overseas experience and its implications for public policy.

The Best of Planning for Higher Education

Stressing the variety of ways in which consumption is structured and organized through cultures and showing how these cultural technologies construct the person, the senses and the self, this book stands at the interface of the sociologies of culture and consumption. Arranged in two sections: *Homes and Households, Places and Spaces*; and *Technologies of Consumption and Waste*, the book includes chapters on youth consumption, cultures of the household, pornography, and waste and rubbish. This will be of interest to all those concerned with the study of culture and consumption whether from sociological, cultural or psychological perspectives.

A Century of Artists Books

This work has been selected by scholars as being culturally important and is part of the knowledge base of

civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. To ensure a quality reading experience, this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

At the Roots of Italian Identity

\''Managing Democracy, Managing Dissent comprises of twenty essays – written by writers, academics and activists and edited by Corporate Watch researcher Rebecca Fisher – which collectively argue that in today's 'democracy' elite interests are served by the limitations placed upon popular participation in decision-making, by the manipulation of public opinion through propaganda, and from the attempts to co-opt, marginalise and/or repress oppositional politics. This ground-breaking book reveals how despite its inherently anti-democratic nature, global capitalism is dependent upon the manipulation of the concept of democracy to survive. It thus exposes a potential weakness at the heart of capitalism, which activists and campaigners can usefully target in their struggle against oppression and environmental destruction. The volume includes examinations of the inherent contradiction between genuine democracy and corporate capitalism, the use of corporate media, the entertainment industry, and celebrity activists as propaganda vehicles, the attempts to co-opt and neutralise NGOs and social movements, the demonisation and repression of unco-opted dissent, and the imperialist agendas behind so-called 'democracy promotion' interventions...\''--Publisher description.

Map of the City of New York and Island of Manhattan

Crime has become one of the main challenges threatening economies and livelihoods in Caribbean countries, but the right mix of policies and programmes can halt the problem. This report reviews the current state of crime as well as national and regional policies and programmes to address the problem in seven English- and Dutch-speaking Caribbean countries: Antigua and Barbuda, Barbados, Guyana, Jamaica, Saint Lucia, Suriname, and Trinidad and Tobago. It provides key recommendations regarding turning the high rates of violent crimes around, addressing gender-based violence, addressing youth violence, and public security.
